## NEWSLETTER

### Lacing Quality Together

In the search for additional revenue sources, the District, Maryland and Virginia continue to impose new taxes, surcharges, and fees on businesses such as ours which were not budgeted and has expanded their sales tax to cover services provided to businesses which previously were not taxed. In addition, they have added a 2.7% surcharge to the workers' compensation insurance rates in addition to the unemployment surcharge which they added at the end of the year.

Our response has been to seek ways to run our operations more efficiently so that we remain competitive and continue to maintain and even increase our presence in the marketplace. Through combined efforts of our field and office employees we have been successful and our level of work has increased the past two months over the first two months of the year. We actively seek ideas for continued improvements in our operations. Bob Wilson

### To All Mona Vehicle Drivers

If you have a ladder on top of the roof of your Mona vehicle, please make sure it is secured properly with a lock and chain. If your vehicle is not equipped with this, please contact Ronnie Harrell immediately to arrange for this to be done. We do not want any future thefts occurring.

#### Special Order Items - Reminder

When ordering special order items, all follow up and expediting is done by your Project Manager or Dispatcher. They will keep a log to identify when the material will be in, not Doris Benton.

### Accident Free

Congratulations to the following foremen/mechanics who were accident free during the first quarter of the 1992 year:

- Tom Davis
- Jeff Russell
- Randy Danchak
- Bob Beckner
- Jim Marshall
- Joe Patrick

#### Technical

- Jim Quinn
- Rick Gacek
- Ron Russell
- Larry Remington
- Amanda Flanigan

Jobsite safety is not only important from the human side in avoiding pain and suffering from a workplace accident but it also has a financial side. Fewer jobsite accidents allows us to be more cost competitive on jobs which in turn provides us with a better opportunity to obtain work. And more work allows all of us continuing opportunities.

### Citizens Concerned For A Cleaner County

You will find an auto trash bag enclosed with your paycheck. The month of May has been called Prince George's County Citizens Concerned For A Cleaner County. Please join us in promoting a cleaner and more beautiful county not only in Prince George's but in all counties by using the enclosed litter bag. The benefits of a cleaner environment affect all of us.

### Memorial Day Holiday

The office and field will be closed Monday, May 25th in observation of Memorial Day. Enjoy your weekend.
