Mona Retro Newsletter Heading – June 1972

A Newsletter for the People of Mona - October 2002

Cares About People • Builds Relationships • Personal Service • Superior Performance • Embraces Innovation

What's New?

- *George King's Gallery*
- *Lincoln Theatre Emergency*
- *FLETC*
- *Our People*

Greetings From George's Gallery

Service Regional Vice President

"Over my 27 years with Mona, there have been numerous key sayings that kept Mona's people efficient. Take a look at a few:"

Can Do! SAFETY FIRST
Stop The Leaks!

Do It Now! 3-Ring Pick up
8 FOR 8!

Same Day Estimates

Bucket Award

Voice/Data/Video

The September Mona Bucket Award goes to our Voice/Data/Video team consisting of **Jason Scheimreif, Jason Howell, Marshall Able, Dane Robey, Terry Norville, Michael Bland, Kathy Grannis and Maria Weingardt.**

We recently revamped our "Scrap Copper" program and the VDV group jumped right in. Typically, extra or miscellaneous wiring left on a project is thrown away. On the Hopkins project, VDV was able to turn in miscellaneous copper valued at \$166+. This is just the beginning of the savings.

Thanks for your efforts and great job!

Lincoln Theatre

- 7:30 p.m., Thursday, August 22 - **Deneene Brockington**, Facility Manager for **Lincoln Theatre** called us about flooding in the Theatre's switchgear room. The call was immediately sent to our on-call employee, Stewart Riley.
- At 10:30 p.m., August 22, Project Manager **Stewart Riley** contacted Service's Asst. Vice President **Kari Logan** about the situation due to his consumption with the Kennedy Center. Technical Mechanics **Brian Wallace** and **Nick Nicastrì**, and our Field Service Center's Courier **Jerry Upright**, were moving quickly to coordinate materials and labor.
- 2:00 a.m., Friday, August 23, 2002 - Brian Wallace and Kari Logan's last conversation.
- 6:00 a.m. Kari Logan, DC Service Senior Field Manager **Mike Young** and Billing Manager **Angela Karnezis** all worked together through the morning while Tool Manager **Elliott Hayward** pulled and posted a permit for the job.
- 11:00 a.m. - all technicians are on site and working through the emergency.
- Saturday, August 24, 2002 - Lincoln Theatre opens while 12 Mona employees stand by.

The following technician's were imperative to the success of this job:

Wayne Holdford	Rick Lee
Brian Wallace	Mark Greenway
David Proctor	Mike Young
Nick Nicastrì	Jorge Roque
Rick Haupt	Jim Quinn
Rick Gacek	Phil Hoffmaster

Much thanks goes out to every single person involved in this emergency. Not only did we generate a new customer, we worked as a team.

Other Disaster Recovery Projects

- 122 C Street, NW- **Trammell Crow, Gary Hoover**
- **The Willard Office Building - Carr America, Ed Shaffer, Chief Engineer**
- **Park Hyatt Hotel - David White, Director of Engineering**

Make sure to Remind Your Customers of our **Emergency Disaster Recovery Services.**

Mona Unites for Success

In response to the terrorist attacks on September 11, 2001, the Federal Government has instituted several response programs, one of which is known as the **Federal Law Enforcement Training Center (FLETC.)**

In June of 2002 we were approached to take over FLETC from another electrical contractor that was awarded the project but was unable to perform the work. **Warren McCleary** was the lead contact and organized our response. The scope involved **Special Projects, Life Safety and Voice/Data/ Video** teams. When Mona stepped in, the electrical installation was nearly a month behind schedule. Our teams not only caught up to the schedule in a short amount of time but we also lead the charge by pushing the project.

Our groups overcame an expedited schedule and an ever-expanding scope on a critical project. The combined expertise, talents and coordinated efforts of the Mona teams allowed them to develop solutions for the obstacles that a project of this nature presents. We have received sincere appreciation from our customer, **Beers Skanska**, and the end user, **The Treasury Department**. This team has set the bar for future projects. Thanks to all who participated in the project -

Proj. Mgmt - **Gary Nycum, Mark Sleeman, Mike Bland, Kristin Hood**
Field Management - **Mike Young**
Forman - **Drew Clark, Curtis Ritter, Donald Saunders**

Comcast Arena to Open On Time

After approximately 113,500 man-hours and 33,000 change order hours, our Construction group is finalizing the last days of the **Comcast project**. **The University of Maryland's Comcast Arena** is set to be finished **October 2**. The University has invited our group to the Gala that they planned, to celebrate the opening on the 9th. The NCAA National Champions will play at midnight on the 10th for their pre-season. Congratulations to everyone involved in this project. We know the tremendous amount of hours everyone put in and we all congratulate you and commend you on your hard work.

Fire Alarm Work Recognized
